AUDIO HDMI 2m

£ 30

VERDICT

We've been on the look out for a bargain budget HDMI and Cambridge Audio has obliged: a fine upgrade

WHILE WE HEARTILY recommend the excellent Chord and QED HDMI cables that have scooped recent Awards, we realise not everyone wants to spend £50+ on a video cable. So here's an alternative...

For just £30, this Cambridge Audio provides 2m of high-quality digital video and audio cabling. Capable of sending video of 1080p quality, the cable feels solid and well-made in your hand and, pleasingly, the images are just as satisfying. Impressive detail, sharp edges and a picture that's largely free of any instability mean this will do just fine for £30.
